INDUSTRY TRAINING COURSES FOR THE MEDITERRANEAN MARICULTURE INDUSTRY

INTRANEMMA (Innovation Transfer Network for Mediterranean Mariculture) is a two year project funded by the EU Lifelong Learning Programme through The State Scholarships Foundation (IKY), Greece.

The project is pioneering, led by producers associations in Greece, Spain and Turkey. The intention is to identify shared knowledge gaps and to develop applied targeted training courses that address the training needs of the Mediterranean Mariculture industry. The INTRANEMMA series of training courses has been developed based on an extensive needs analysis of the Mediterranean sea bass and sea bream mariculture sector. By specifically targeting sector bottlenecks, it is hoped that the courses will up skill workers, transfer latest knowledge and be a forum for sharing experiences.

The partnership consists of relevant Mediterranean actors, Federation of Greek Maricultures (FGM – Coordinator) (Greece), APROMAR (Spain), Mugla Fish Farmers Association (Turkey), AQUARK (Greece) and Aqua TT (Ireland) ensuring that the outputs meet the needs of the industry.
